MEMORANDUM OF UNDERSTANDING - CLEANUP OF BIKINI ATOLL

On April 29, 1969, a memorandum of understanding was signed at Bikini Atoll by representatives of the three organizations participating in the cleanup program. This memorandum gave details of which structures were to be removed and which were to be left in place. An amendment to the original memorandum was signed at the atoll on June 25, 1969. The amendment only slightly changes the first document. These are the guidelines being followed at the working level on the atoll. Two copies of the original memorandum and of the amendment are attached.
